

DESIGN YOUR OWN SUPER GERM

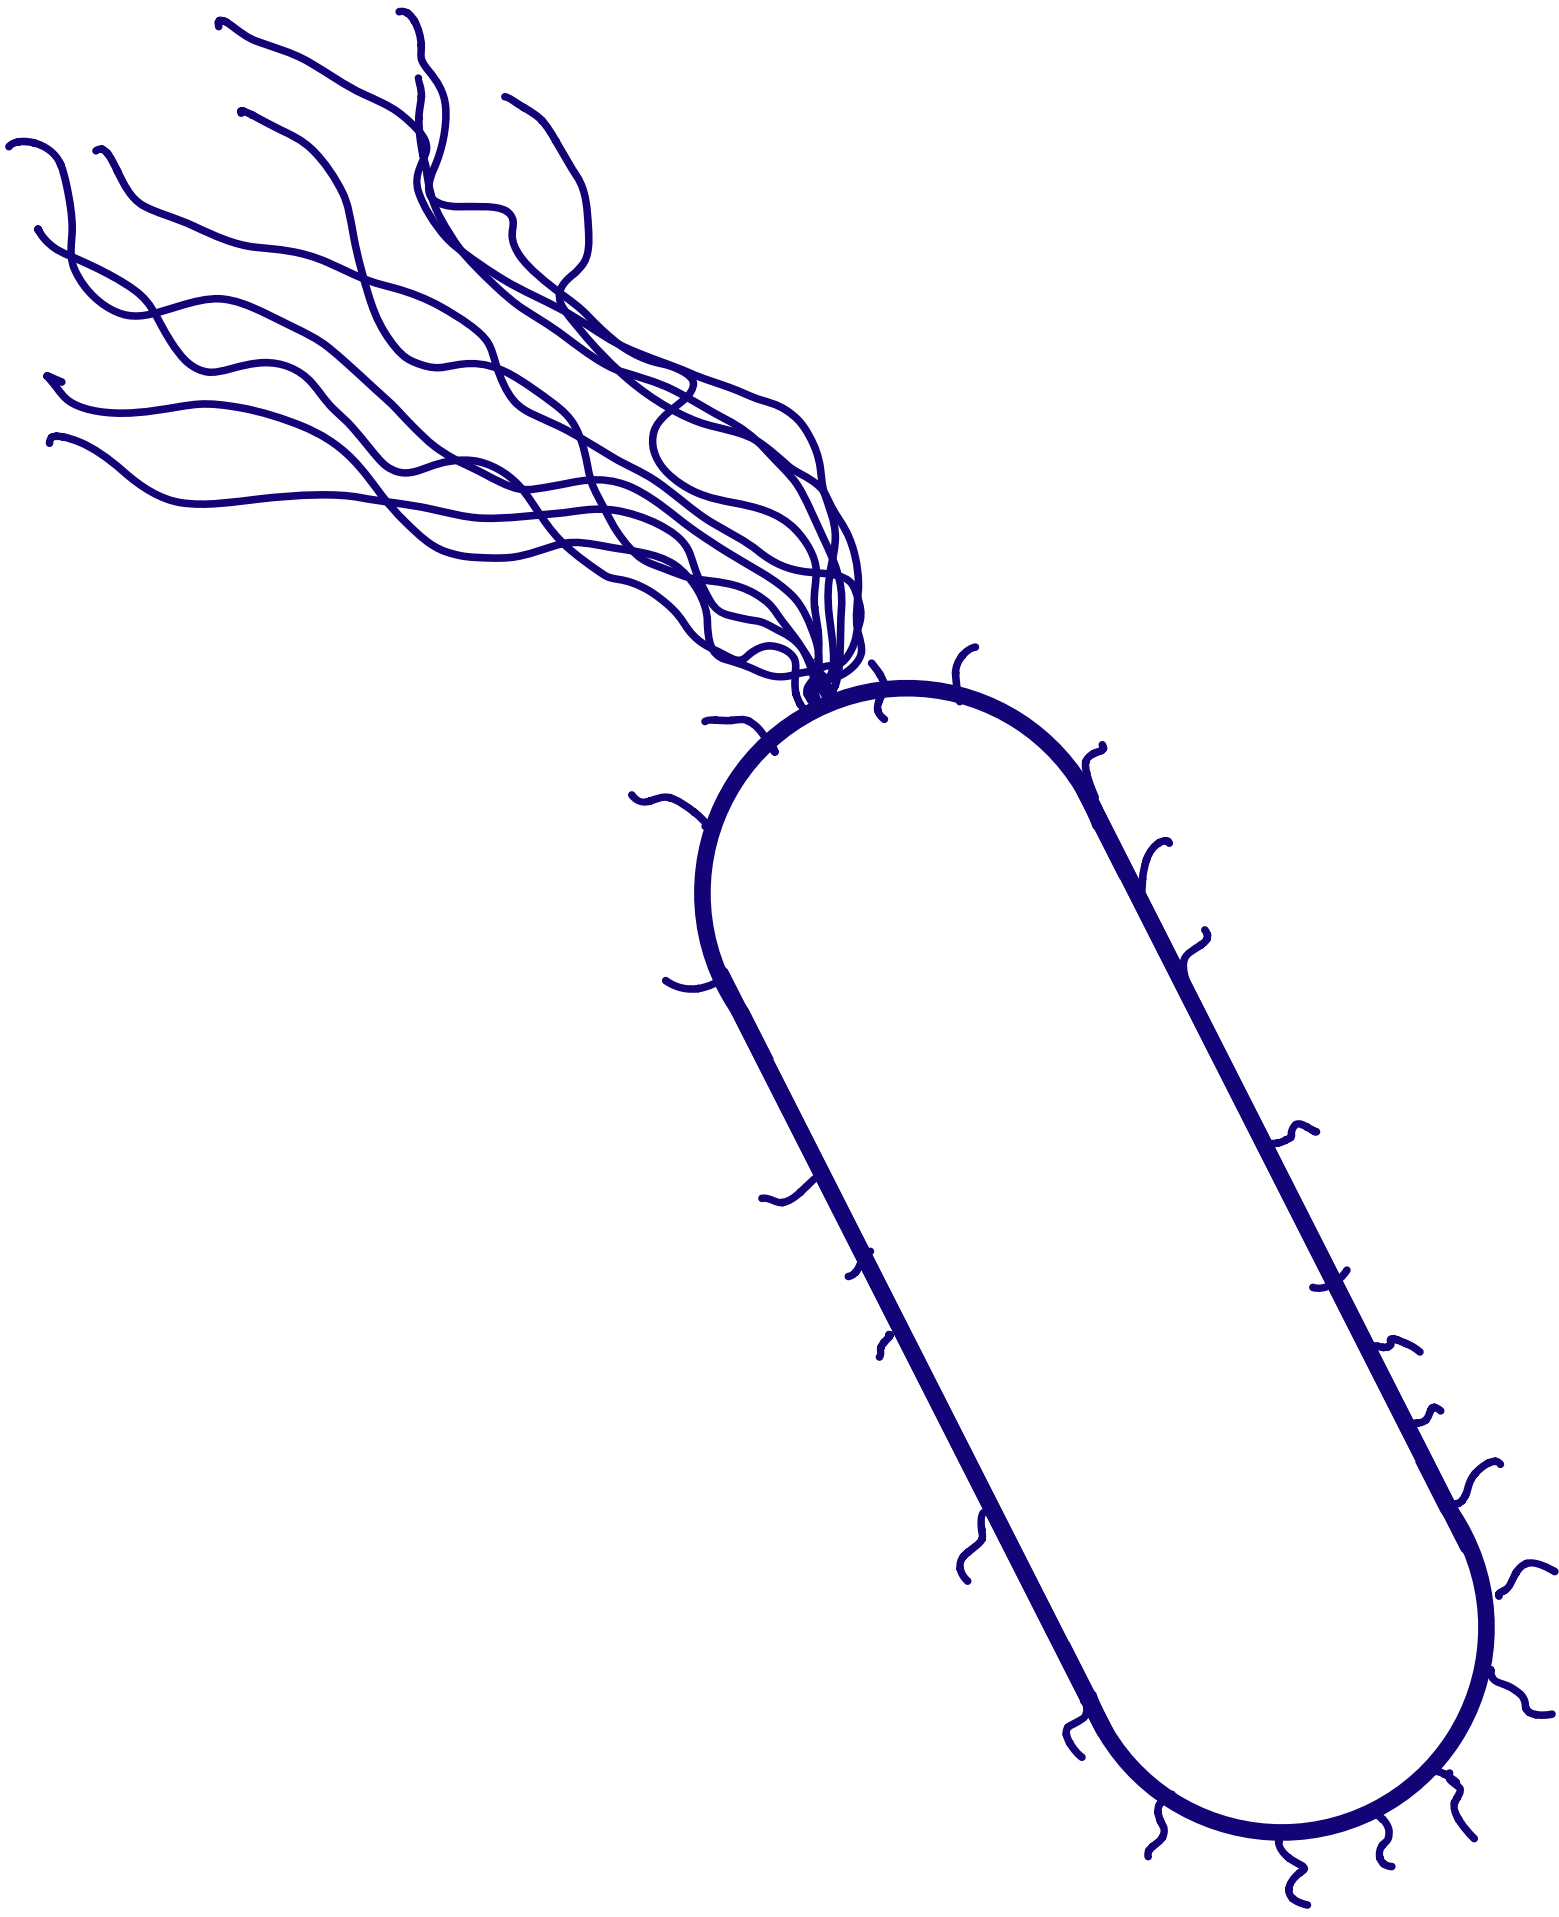

For:

- **Super antibiotic resistance**
- **Super-fast growth for world domination**
- **Super power host attack systems**

Option 1: Draw a picture of your very own super germ! Then label all of the features that make it super e.g. thick armour to protect it from antibiotics

The more creative the better! Let your super germ imagination run wild!!

Option 2: Label this bacterium with super-resistance features

Option 3: Make a model of a super germ

You can use any materials you have - The more creative the better!!

Different Shapes of Bacteria for Inspiration:
